Without formal training focusing on the procedures of a trial, the rules of the courtroom, the expectations of the jury, etc., many officers have to rely on their instinct to be the best witness possible. Legal Sciences' **COURTROOM TESTIMONY** training gives officers and investigators a foundation and structure to support their individual styles, and goes far beyond the "how to dress" and "where to look" rules. This training includes hands-on activities including a mock trial that exposes officers to a wide range of testifying styles, which can be used throughout their entire careers in many types of cases.
