## **Law Enforcement Defensive Tactics / Military Combatives Instructors**

**U.S. Naval Special Warfare (NSW) Advanced Training Command –SEALs/SWCCs hosts**  
**GRACIE SURVIVAL TACTICS®**  
**Level 1 Military/Law Enforcement Instructor Certification Course**

**October 1-5, 2018 in Coronado, CA**

**The Gracie Academy is pleased to announce that the Navy SEALs/SWCCs will be opening their doors to U.S. Law Enforcement and Military personnel for the Gracie Survival Tactics Level 1 Instructor Certification School.**

Gracie Survival Tactics (GST) is a highly specialized industry leading Combatives/Defensive Tactics program for Military and Law Enforcement professionals. The 23 techniques featured in the GST course have been adopted by hundreds of Federal, State and Local Law Enforcement Agencies, as well as the Special Operations Community, because they are easy to apply and have been proven to work for all officers regardless of age, weight or athletic ability. GST is designed to reduce liability from excessive force allegations and is applicable to CQB/Room Clearing/High Risk Entry scenarios.

**THE GST PROGRAM IS A LIVING CURRICULUM THAT IS CONSTANTLY EVOLVING AND BASED ON THREE RULES:**

**Rule 1: The suspect always has the ambush advantage.**

Anytime you are within document transfer range, you are also within ambush range. In the GST course we teach simple, high-percentage sudden assault defense strategies so that you can neutralize the threat and achieve a position of advantage in the least amount time possible.

**Rule 2: The officer should never grapple with the bad guy by choice.**

If you are ambushed by the bad guy and taken to the ground against your will, the primary concern is the immediate access the bad guy has to your weapons. In the GST course, we teach a series of leverage-based weapon retention strategies, as well as the core distance recovery strategies so that you can disengage from the fight and utilize the appropriate force options.

**Rule 3: In a street fight, there is no “tap out”.**

The concept of tapping out was designed for safe sportive practice, but street fights are neither safe nor sportive. In the GST course we teach a total of 23 techniques and every one of them ends with you safely removed from the fight or with the suspect in handcuffs.

**23 TECHNIQUES THAT COULD SAVE YOUR LIFE- YOU WILL LEARN TO:**

- 1) Neutralize the initial threat
- 2) Retain Control of your weapons
- 3) Achieve a position of advantage

**FREE ONLINE TRAINING**

GST is a 5-day Hands-On Instructor Certification Course where graduates also receive free access to the entire course Online on Gracie University for the duration of their certification period (a \$395.00 value).
