

VEHICLE DEFENSE COURSE

Active Duty Law Enforcement Only

Vehicle stops are one of the most frequent interactions peace officers have with the public. They also put officers at a significant risk of being injured or killed by criminal offenders. This course is for patrol officers, gang officers, crime impact teams or detectives who conduct vehicle stops for investigative purposes.

The "Vehicle Defense" course is a 2-day format concentrating on the tactics to fight in/out and around vehicles. Topics covered in this class are vehicle approaches, cover vs concealment, counter ambush techniques, ballistics, auto-glass composition and the effects of angled fire. A strong emphasis will be placed on developing and imprinting proper techniques under pressure.

Range drills will include conventional and unconventional shooting positions, passenger/driver side ambushes, use of cover, movement, support hand shooting, transitions as well as multiple target engagements.

It is recommended that the student bring knee pads, elbow pads and suitable foot wear for movement".

***** This is not an entry level course, students should have a solid foundation in the fundamentals of marksmanship, weapon manipulations and a proper mindset. *****

Tuition: \$575.00 (range fees included)
