4.	POST Report	We are in July, and in the POST Force Course Modification stage for all the training courses in California. If your course was approved in an odd year 2023, it will be forced into modification in two years 2025. Purpose of force modification is to keep instructor list updated, and any changes in policy updated. Check your safety plan, admin page, instructor and outline page and make sure it is current to standards. Read Dan's comments and make the corrections (every outline must have a revision page and make sure revision date and number is up to date). POST is monitoring 29 law enforcement bills. 6 of the 29 are administrative items where a training manager does not have to worry about. See below: AB 421 Immigration Enforcement: prohibitions on access, sharing information and LE collaboration. This bill would prohibit California law

	enforcement agencies from collaborating with, or providing any information in writing, verbally, on in any other manner to, immigration authorities regarding proposed or currently underway immigration enforcement actions when the actions could be or are taking place within a radius of one mile of any childcare or daycare facility, religious institution, place of worship, hospital, or medical office. The other side of it is AB 85 LE: cooperation with immigration authorities. Under current law, a law enforcement official has limited discretion to cooperate with immigration authorities, and may only provide information regarding a person's release date or transfer an individual to immigration authorities without a judicial warrant or probable cause determination if the individual has been convicted of specified crimes, including, but not limited to, serious and violent felonies, as specified, and only if doing so would not violate any federal, state, or local law, or local policy. Notwithstanding those provisions, this bill would instead require law enforcement officials to cooperate with immigration authorities by detaining and transferring an individual and providing release information if a person has been convicted of a felony. SB 274 Automated license plate recognition system. subdivision of the state, a city, a county, or a city and county, including, but not limited to, a law enforcement agency, from selling, sharing, or transferring automated license plate recognition (ALPR) information, except to another public agency, and only as otherwise permitted by law. Current law defines ALPR information as information or data collected through the use of an ALPR system. This bill would, in compliance with specified laws, prohibit a public agency from using an ALPR system to gather geolocation data at specified locations for immigration enforcement purposes and retaining ALPR information for more than 30 days, except in specified circumstances. SB 574 Artificial Intelligence in officer reporting writing. If you have an AI generated report and must make any changes. It is required for the officer to keep an original and keep the change. AB 992 Peace Officer must have one of the six qualifications to be hired as a peace officer. Modern Policing Degree, Associates Degree, Bachelors Degree, 2 years of military experience, 2 years of law enforcement experience at another state, professional certificate from policing certificate (police academy). If you do not have any of those five you must get a Modern Policing Degree in 3 years. Required by 1/1/2031. Instructor Update, 29448-Firearms Instructor Update, 29450-Physical Training Instructor Update, and 29452-Use of Force Instructor Update. Updated courses must be completed by 2029. POST suggest to wait till near the January 2029 deadline date to complete, that way you don't have to take update course again till 2033. Updates are done every 4 years.
